VANMOOF

UL 2849 Certification communication

Dear Customers:

VanMoof wants to adhere to all mandatory regulations in each country in order to market the bikes and provide a safe product to our customers.

We hereby inform you that the New York city council has recently approved a law (Int 0663-2022) that requires all electric bicycles sold in the State of New York to be certified to UL 2849, and all lithium-ion batteries to be certified to UL 2271.

This local law established that any company selling, leasing or distributing e-bikes has 180 days to meet the requirements, as the law was signed on March 20th, 2023, then Vanmoof has until September 16, 2023 to comply with the requirements in relation to these certifications.

VanMoof S5 & VanMoof A5 have UL 2271 certified batteries and it is expected to conclude the UL 2849 certification process in approximately 17 weeks.

For more information on VanMoof certified batteries, please go to:

https://productiq.ulprospector.com/en/search, and enter: UL number: MH64281 for Battery Model: VTBP-001, and/or UL number: MH65415 for Battery Model: VTBP-002.
